About us

As a SME ourselves, we understand the challenges that HR admin can bring. Since 2012, we have grown to 40 employees who all help to deliver a service and product we're proud of. We believe that people are at the heart of every business, which is why we help tackle the paperwork, so you're left with more time to focus on and develop your people.

"If you are using paper or spreadsheets, drop them and use Breathe. For a small outlay each month you have a one stop shop to keep all information in one secure place as well as save yourself hours of time."
